Looking to be part of something different?

For the right people, here's the opportunity you've been looking for. Total Marketing Support (TMS) has recently secured one of the world's leading FMCG brands and one of the most prestigious contracts in the Display sector. As a result we are looking for talented, hard working and enthusiastic people to join the team to deliver outstanding services to our client.

The ideal candidate

You'll already have extensive experience in the semi-permanent and/or permanent Display market and have been making it happen for your clients in exciting and fast paced environments, sourcing products that will bring their brands to life in the retail world. You'll also be exceptional at managing multiple projects through the print production cycle.

More importantly though, you're a team player, someone who will roll their sleeves up and deliver. Our client will love your positive outlook and you'll give them the confidence that their brands are in safe hands. These roles are not for the faint hearted, they're for people who want to succeed and will do so through passion, commitment and dedication.

Technically, you will know your stuff. You will be expected to provide expertise to the client; not only on the technical aspects of print production, but importantly, you'll be innovative and able to bring fresh thinking. This will come from a deep understanding of the industry coupled with a desire to do things better, openly and in partnership with both our clients and our valued supply partners.

You'll also be the turn-to person when something new is required and the client or our implementation team needs someone to trust to make things happen. You'll also need to be commercially-savvy, with a great talent for negotiating and identifying the best value, whilst maintaining sustainable relationships with our supply partners that will make them want to deliver and exceed.

Role and responsibilities

Your regional Account Manager will be your direct reporting line and you'll be further supported by a dynamic Client Services Director who will need you to be an integral part of the team that is responsible for the execution and management of the contract in your region. This will involve the management and delivery of all Display requirements; jobs, projects, campaigns, the provision of additional service lines and associated tasks. In short you'll be accountable for meeting our client's needs and in so doing, you'll play an active role in the development and customer satisfaction of our client.

You will have accountability for service delivery with the skills required to marshal the resources of TMS's supply partners and our support functions to provide a service worthy of awards.

How to apply

If you fit that bill, we want to hear from you. We have roles across Europe, all based in our client's offices where you will be the public face of TMS and an ambassador for our business.

If you share our passion for a relentless and responsive approach to doing things differently then get in touch.

Send us a covering letter explaining why you're the right fit for our team and a CV that proves you have the experience we need and email it to: talent@totalmarketingsupport.com
