

Strivo™

Strivo™, The Twist Lock, bag-in-box connecting system and complementing fitment offers ease of use with its simple connect, twist and lock functionality. Ideal for use when connecting flexible packaging to dispensing machinery, Strivo is suitable for high or low viscosity liquid beverages. It can also handle fruit aggregates.

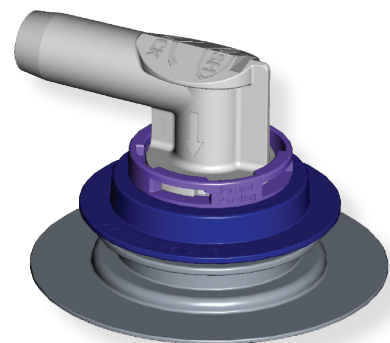

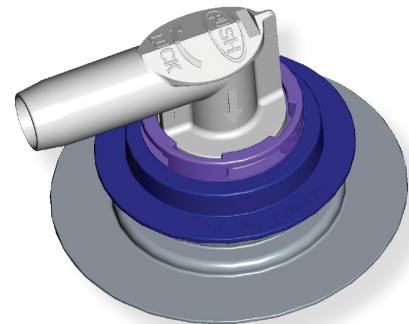

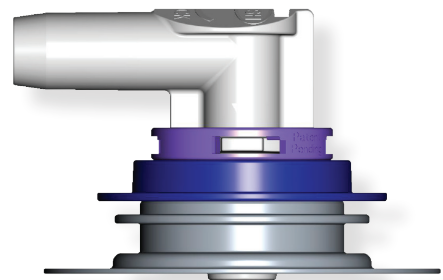

Strivo's connector and fitment is a great fit for food products under FDA and EU regulations.

Features & Benefits:

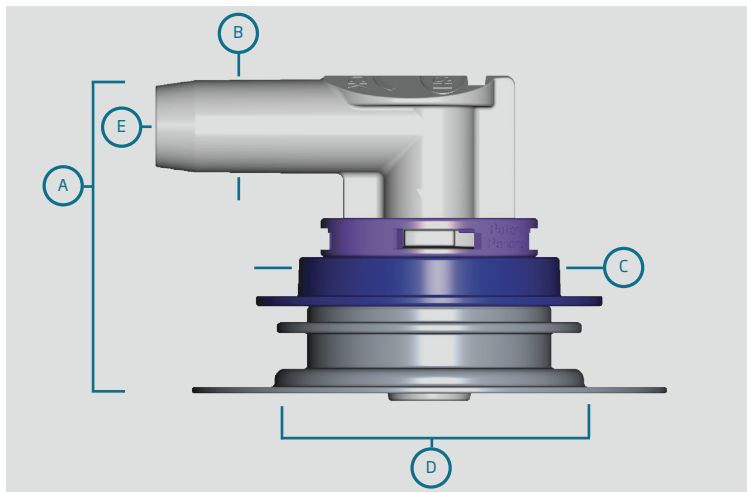

- User-friendly
- Easy to clean and sanitize one piece construction
- Firmly locks into fitment
- Seals to keep product fresh
