

## Creative Dispensing Solutions

Worldwide Dispensers™ specialises in high quality precision molding dispensers for liquids, including **custom** designed and popular **in-stock** solutions.

### Custom Designed Liquid Dispensers

We develop innovative liquid dispensing systems for rigid, semi-rigid and flexible packaging from concept to production, based on our customer's needs.

Our concept to production design process entails:

- Close collaboration with customers to understand their requirements
- Evaluation of existing products and offerings of solutions
- Rapid prototype development using a variety of technologies including 3D printing
- Rendered models of parts or components using the latest generation CAD software

### In-Stock Liquid Dispensing Systems

As experts in liquid dispensing, we take all facets into consideration when designing and manufacturing fluid systems. This includes viscosity ranges, oxygen barrier, air return, flow rate, leakage, tamper resistance, controlled dosing and extended shelf life.

We carry a variety of popular dispensers for flexible and rigid containers, they include:

- **Aseptic Dispensers** - designed for hygienic transfer and dispensing.
- **Lever Taps** - offers versatility and generous flow rate, standard or high. Features include air return which can be fitted to most containers.
- **Push Taps** - front and top push taps manufactured for single handed, self closing applications. Ensures optimised flow rate and an excellent oxygen barrier.
- **Twist Taps** - ergonomic twist taps offer clean valve shut off and no leak/no drip design.

Push Tap - VINIFlow™

Push Tap - Mustang™

## In-Stock Solutions Product Guide

### Markets & Containers

Our products include a wide range of pouring devices, adapters and caps for flexible packaging

	Containers	Markets				
		Beverage	Liquid Food	Garden	Household	Chemicals
Aseptic Dispensers	Rigid & flexible					
Lever Taps	Rigid, semi-rigid & flexible					
Push Tap	Rigid & flexible					
Twist Taps	Rigid & flexible					

### Fitments

Our products include a wide range of pouring devices, adapters and caps for flexible packaging

	Type	Markets	Additional Info
	Pouring Cap™	Beverage, liquid food, household & chemicals	Available in red, orange & yellow
	Elpo Cap/Aseptic Assembly	Dairy & liquid food	
	Milk Cap & Tube	Dairy	
	Snap Cap®	Beverage, liquid food, household & chemicals	For high heat applications
