

WE ARE LOOKING FOR A PACKAGING DEVELOPER

DS Smith Plc is a leading international supplier of recycled packaging, producing more than 10 billion boxes a year and having more than 29 thousand employees.

UAB DS Smith Packaging Lithuania is the largest producer of corrugated cardboard in Lithuania and the Baltic States.

In order to strengthen our team at the Vilnius site, we are now looking for a packaging developer for creative consulting and development of packaging solutions on the individual basis of customer requirements.

Your tasks:

- Market research;
- Testing (monitoring) of packaging machines market;
- Gathering information on the needs of the customer automating process;
- Development of new not standard solutions, optimizations and automation;
- Production-oriented and result-oriented cooperation with the customer, sales, service area and production;
- Creatively and timely implementation of customer briefings.

Your profile:

- Ideally, a packaging technologist and/or designer-engineer with professional experience in packaging development;
- Willingness to perform;
- Customer and success orientation;
- Handling of Microsoft Office, ArtiosCAD, Artios 3D;
- Knowledge of packaging machinery/lines – strongly recommended;
- Experience in R&D at production companies is an advantage;
- Good communication skills – English (spoken and written); Russian is an advantage;
- Willingness to travel.

What we offer: with us you can expect a highly motivated team, exciting customers as well as interesting and self-responsible activities. Commitment is rewarded by fair remuneration. Good social benefits, such as additional health insurance and a company car are offered. As a healthy and growing company, we can offer you a secure workplace.
