## About Us

The Plastics Division is a fast-growing unit of DS Smith Plc. Our portfolio of products includes flexible packaging and dispensing solutions, rigid packaging and foam products. DS Smith Plastics works with many of the world's leading companies in a diverse range of industries and markets. Wherever packaging and distribution are important factors in the business mix, the Plastics Division can help customers promote efficiency and improve their competitive advantage.

## Global Reach

DS Smith is located around the world and continues to expand internationally through organic growth and selective acquisitions. We operate in North America, Europe and Australasia with sales offices that are supported by an extensive network of agents and distributors around the world, including in Asia and South America. DS Smith has the ability to design and manufacture components in house to supply products anywhere in the world to customers who greatly benefit from having a seamless international supplier.

## Worldwide Dispensers™

Worldwide Dispensers, a part of DS Smith, Plastics Division, is a global leader in high quality precision moulding and custom dispensing solutions and continues to operate at the forefront of global developments in liquid packaging. For more than 40 years, we have supported our clients with custom dispensing taps, closures, fluid connectors, medical components, fitments and contract manufacturing that fulfill our customers' needs and deliver impressive results. With a passion for our customers' success, Worldwide Dispensers aims to provide expertise to start-up companies and the world's leading consumer, bio-pharmaceutical and industrial organizations. As business continues to grow, we keep our focus on updating and expanding our facilities including a major expansion of our Lester Prairie, MN USA location in 2018.

## Rapak®

Rapak, a part of DS Smith, Plastics Division, is a global leader in manufacturing bags, fitments and filling machines for liquid packaging applications. As a sister company to Worldwide Dispensers, Rapak has the capabilities to assemble Worldwide Dispensers supplied components in-house to be applied to bags for Bag-in-Box and Urn-liners™.

Worldwide Dispensers™ specializes in high quality precision moulding dispensers for liquids including **custom** designed and popular **in-stock** solutions.

## High Quality Manufacturing

### Injection Moulding & Assembly

Our state-of-the-art, automated high precision injection moulding equipment, along with our extensive experience in both injection moulding and assembly, allow us to provide the best quality and price competitive components.

### Testing & Quality Control

Our labs are fitted with the latest technologies in testing equipment to ensure that our products exceed performance requirements. We stringently analyze our finished products, completing tests in precision tolerance (levels of  $\pm .001$  pending material), process validation studies and dimensional inspection. We fulfill leak testing, first article inspections, control charting, custom inspection plans and statistical tracking software (CpK, GR&R studies). Gauging, touch CMM and video CMM are also completed.

Worldwide Dispensers is dedicated to meeting the highest standards of sanitation, hygiene and safety for all our products and services. All our dispensers conform to current FDA and European food contact legislation. We continually strive to improve our processes and stay current with all procedures and certifications.

#### North America

- ISO 9001:2015 Certified
- ISO 14001:2015 Certified
- Interstate Milk Shippers (IMS) Certified
- Clean Room Certified to ISO Class 7 (Class 10,000), Operating at ISO Class 8 (Class 100,000)
- MNSHARP - Minnesota Safety and Health Achievement Recognition Program
- MN Governors Safety Award for Superior Performance

#### Europe

- FDA/IMS Compliance
- ISO 9001:2008 Certified
- BRC/IOP (British Retail Consortium) Global Standard for Packaging and Packaging Materials

### Technology & Characteristics

Advancement in innovations and technologies allows us to create effective standard and customized dispensing solutions. Our designs feature the following proven and reliable technology and characteristics:

- Simple, intuitive attributes
- Color coded actuators and components for visual identification, including custom Pantone color matching
- A variance of methods to control product flow
- Automatic shut-off with minimal post-drip
- Available tamper evident features

### Custom Design

Customers work directly with our full-service Project Management and Product Development teams to discuss new product requirements and development ideas. Our expert group of engineers and designers has a vast knowledge of new technologies and materials and can offer original, creative and functional solutions to take your project from conception to production with:

- CAD Rendering models of parts and components
- 3D printing within 24 hours
- Rapid prototype development with CNC machines
- Certified clean rooms
- MOCON Ox-Tran Model 2/61 - Oxygen transmission testing
- AutoDesk Moldflow simulation software for predicting and analyzing molding concepts
- Epson Scara robotic cell - Low Volume automated assembly

## In-Stock

### Liquid Dispensing Solutions

As experts in liquid dispensing, we take all facets of performance into consideration when designing and manufacturing fluid systems. This includes viscosity ranges, oxygen barrier, air return, flow rate, leakage, tamper resistance, controlled dosing and extended shelf life. We manufacture a variety of popular dispensers and complementary fitments, spouts and adapters for flexible and rigid containers.

## QuickServe™ Taps

**Description:** Easy action lever taps with the 8mm spigot.

**Flow Rate:** Up to 72 ml/sec (8mm opening) and 155 ml/sec (12mm opening)

**Markets:** Beverage, liquid food, household and chemicals

**Typical Containers:** Suitable for rigid and semi-rigid (i.e. Cubitainer®) containers and Bag-in-Box.

	<b>Code EU</b>	<b>252402</b>
	Manufactured	
	Description	QST Standard Spigot
	Color	White
	Size	8mm Spigot opening
	Back End Type	38mm Screw Ring
	Recommended Fitments	201506 Spout
	Containers	Cubitainers and Bag-in-Box
	<b>Code EU</b>	<b>255101</b>
	Manufactured	
	Description	QST Standard spigot
	Color	White
	Size	8mm Spigot opening
	Back End Type	Push-in
	Recommended Fitments	201529 Spout and customer caps, where it will need a "Cut" version of Code 201000
	Containers	Rigid containers
	<b>Code EU</b>	<b>255830</b>
	Manufactured	
	Description	QST Standard Spigot
	Color	White
	Size	8mm Spigot opening
	Back End Type	Screw-in
	Recommended Fitments	3/4" (inch) BSP threaded hole + 201703 white washer
	Containers	Rigid containers
	<b>Code EU</b>	<b>255551</b>
	Manufactured	
	Description	QST Standard Spigot
	Color	White
	Size	8mm Spigot opening
	Back End Type	Screw-in
	Recommended Fitments	3/4" (inch) BSP threaded hole
	Containers	Rigid containers

## Aeroflow™

**Description:** Air-returning lever taps designed for metal or plastic, single-opening containers from 5L to 200L. Gives an effortless, 'glug' free dispense with no hazard, no waste and no need for secondary venting.

**Flow Rate:** Up to 70ml/sec when fully opened, with the possibility to control the dispense rate by turning the lever accordingly.

**Market:** Food products, chemicals and viscous liquids

**Typical Containers:** Large, rigid single-opening (non-vented) containers up to 200L

	<b>Code EU</b>	<b>251204</b>
	<b>Manufactured</b>	
	<b>Description</b>	Aeroflow™ Lever Tap 1.6 Pe
	<b>Color</b>	Natural/Red
	<b>Back End Type</b>	Push-in with locking ring and washer for a 29mm clearance hole
	<b>Recommended Fitments</b>	External customer caps
	<b>Code EU</b>	<b>251205</b>
	<b>Manufactured</b>	
	<b>Description</b>	Aeroflow™ Lever Tap 1.6 Pe
	<b>Color</b>	Natural/White
	<b>Back End Type</b>	Push-in with locking ring and washer for a 29mm clearance hole
	<b>Recommended Fitments</b>	External customer caps
	<b>Code EU</b>	<b>251804</b>
	<b>Manufactured</b>	
	<b>Description</b>	Aeroflow™ Lever Tap with 3/4" Short Adapter
	<b>Color</b>	Natural/Red
	<b>Back End Type</b>	Screw-in
	<b>Recommended Fitments</b>	3/4" BSP taper thread socket + white washer
	<b>Code EU</b>	<b>251451/251461</b>
	<b>Manufactured</b>	
	<b>Description</b>	Aeroflow™ Lever Tap
	<b>Color</b>	Natural/Red
	<b>Back End Type</b>	Screw ring 51/61
	<b>Recommended Fitments</b>	DIN38/DIN45/DIN51/DIN61 Screw thread
	<b>Containers</b>	Rigid containers

## Smooth Flow

**Description:** Compact, air-returning lever taps designed for small, single-opening containers from 3L to 10L. With a divider molded into the 12mm spigot bore, the Smooth Flow separates the liquid and air streams ensuring safe and convenient dispensing of liquids without 'glug' from small blown bottles, jerry cans or glass demijohns.

**Flow Rate:** Up to 30ml/sec

**Markets:** Beverage, liquid food, household and chemicals

**Typical Containers:** Jerry cans and smaller rigid containers

	<b>Code EU</b>	<b>258007</b>
	<b>Manufactured</b>	
	<b>Description</b>	Smooth Flow Lever Tap 1.6 Pe
	<b>Color</b>	Natural + White spigot + Blue plug
	<b>Size</b>	12mm Spigot opening
	<b>Back End Type</b>	Push-in for a 29 mm clearance hole. (Must have the sleeve & optional rubber washer)
	<b>Recommended Fitments</b>	External customer caps
	<b>Containers</b>	Jerry cans and smaller rigid containers
	<b>Code EU</b>	<b>258473</b>
	<b>Manufactured</b>	
	<b>Description</b>	Smooth Flow Lever Tap
	<b>Color</b>	Natural + White spigot + Blue plug + White Washer
	<b>Size</b>	12mm Spigot opening
	<b>Back End Type</b>	38mm Screw Ring
	<b>Recommended Fitments</b>	201506 38mm Spout
	<b>Containers</b>	Jerry cans and smaller rigid containers
	<b>Code EU</b>	<b>258464</b>
	<b>Manufactured</b>	
	<b>Description</b>	Smooth Flow Lever Tap
	<b>Color</b>	Natural + White spigot + White plug
	<b>Size</b>	12mm Spigot opening
	<b>Back End Type</b>	38mm Screw Ring
	<b>Recommended Fitments</b>	201506 38mm Spout + White Washer
	<b>Containers</b>	Jerry cans and smaller rigid containers
	<b>Code EU</b>	<b>258012</b>
	<b>Manufactured</b>	
	<b>Description</b>	Smooth Flow Lever Tap
	<b>Color</b>	Natural + White spigot + Blue plug
	<b>Size</b>	12mm Spigot opening
	<b>Back End Type</b>	Snap fit for screw ring
	<b>Recommended Fitments</b>	200408 38mm Screw ring
	<b>Containers</b>	Jerry cans and smaller rigid containers

## Jumbo Taps

**Description:** Easy-action lever taps with an 18mm spigot bore and no air return. These are ideal for more viscous liquids.

**Flow Rate:** Up to 296ml/sec

**Markets:** Beverage, liquid food, garden, household and chemicals

**Typical Containers:** Rigid containers such as jerry cans, drums, barrels and water butts

	<b>Code EU</b>	<b>250450</b>
	Manufactured	
	Description	Jumbo Lever Tap
	Color	Natural/Red
	Size	18mm Spigot opening
	Back End Type	38mm Screw ring
	Recommended Fitments	201506 Spout
	Containers	Rigid containers
	<b>Code EU</b>	<b>250655</b>
	Manufactured	
	Description	Jumbo Hex Short Thread Lever Tap
	Color	Natural/Red
	Size	18mm Spigot opening
	Back End Type	Screw-in
	Recommended Fitments	Jerry cans with 3/4" BSP tapped holes
	Containers	Jerry cans
	<b>Code EU</b>	<b>250667</b>
	Manufactured	
	Description	Jumbo Hex Long Thread Lever Tap
	Color	Black + Black washer
	Size	18mm Spigot opening
	Back End Type	27mm Clearance hole + fixing nut
	Recommended Fitments	Required: 202015 fixing nut
	Containers	Water butts or barrels
	<b>Code EU</b>	<b>250660</b>
	Manufactured	
	Description	Jumbo Hex Long Thread
	Color	Natural/Red
	Size	18mm Spigot opening
	Back End Type	27mm Clearance hole + fixing nut
	Recommended Fitments	Required: 202004 fixing nut
	Containers	Barrel or drum where back is accessible to fixing nut

## Water Butts

**Description:** Durable, smooth-action lever taps for gardening and household applications. The hose version is to be used with quick connect system where the nozzle remains static and the spigot can be operated freely without twisting the hose.

**Flow Rate:** Up to 150ml/sec

**Market:** Garden and household

**Typical Containers:** Water butts, drums, fermenter and home-brew barrels

	<b>Code EU</b>	<b>406129</b>
	<b>Manufactured</b>	
	<b>Description</b>	Water Butt Tap Short
	<b>Color</b>	Black + Black washer
	<b>Size</b>	3/4" BSP
	<b>Back End Type</b>	Screw-in
	<b>Containers</b>	Water butts, drums, fermenter and home-brew barrels
	<b>Code EU</b>	<b>406130</b>
	<b>Manufactured</b>	
	<b>Description</b>	Water Butt Tap Long Thread + Hose Connect
	<b>Color</b>	Black + Black washer
	<b>Size</b>	3/4" BSP
	<b>Back End Type</b>	Screw-in
	<b>Containers</b>	Water butts, drums, fermenter and home-brew barrels
	<b>Code EU</b>	<b>406131</b>
	<b>Manufactured</b>	
	<b>Description</b>	Water Butt Tap Long Thread + Hose connect + Two Black Washers + Black Nut
	<b>Color</b>	Black + Black washer
	<b>Size</b>	3/4" BSP
	<b>Back End Type</b>	Screw-in
	<b>Containers</b>	Water butts, drums, fermenter and home-brew barrels

## Twist Taps

**Description:** Excellent oxygen barrier with precision valve shut off and ergonomic top twist operation. They feature no leak and no drip designs.

**Markets:** Beverage, liquid foods, household and chemicals

**Typical Containers:** Bag-in-Box/Stand-up pouch

	<b>Code USA</b>	<b>800350 TruTap</b>
	<b>Manufactured</b>	
	<b>Description</b>	Excellent oxygen barrier with precision valve shut off
	<b>Color</b>	Black
	<b>Back End Type</b>	Push-in
	<b>Recommended Fitments</b>	800360 Bag-in-Box applications 800494 Stand-up pouch applications
	<b>Containers</b>	Bag-in-Box and Stand-up pouches
	<b>Code USA</b>	<b>800212 ValuTap</b>
	<b>Manufactured</b>	
	<b>Description</b>	Disposable twist tap for continuous hygienic dispensing
	<b>Color</b>	Black twist cap + Natural spigot
	<b>Containers</b>	Bag-in-Box
	<b>Code USA</b>	<b>800127 Grande ValuTap</b>
	<b>Manufactured</b>	
	<b>Description</b>	Clean shut off valve and no leak/no drip design
	<b>Color</b>	Black twist tap + Natural spigot
	<b>Back End Type</b>	38mm Screw Ring
	<b>Recommended Fitments</b>	800014
	<b>Containers</b>	Bag-in-Box

## Self Closing Taps

**Description:** Top pull tap manufactured for single handed, self closing applications to ensure an optimized flow rate and an excellent oxygen barrier.

**Markets:** Beverage and other liquids

**Typical Containers:** Bag-in-Box/Stand-up pouch and Rigid Containers (with vent)

	<b>Code EU</b>	<b>302938 VINIflo<sup>™</sup> Standard w/ Foil TE Seal</b> <b>302932 VINIflo<sup>™</sup> Standard w/o Foil TE Seal</b>
	<b>Manufactured</b>

## Our People

Ensuring the safety, wellbeing and development of colleagues and contributing to our communities

## Our Environment

Minimising our impact, from design to production and supply to recycling

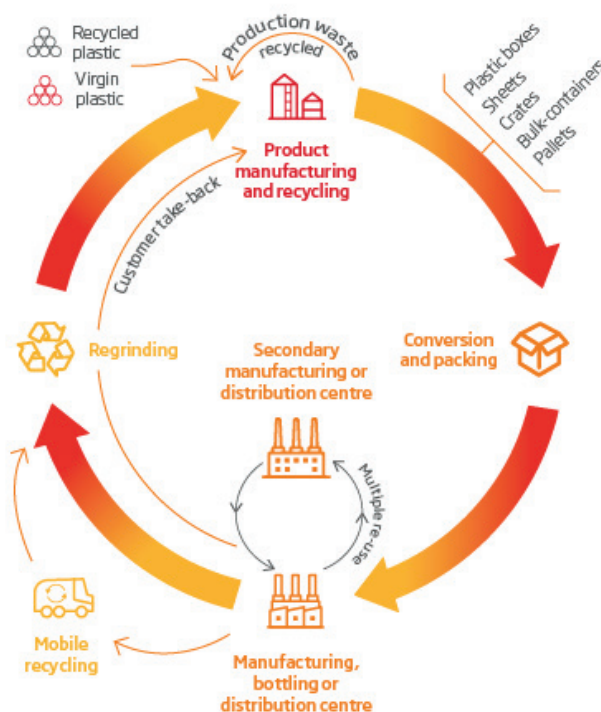

## Our Business

Creating shared value through responsible recycling, paper and packaging solutions

# Sustainability

## Working to be the leading supplier of sustainable packaging solutions

At DS Smith, truly sustainable value is found when balancing the needs of our business, our environment and our people. We continue to progress towards our target of 30% reduction in carbon emissions per tonne of production and our leading achievements continue to be externally recognised. Achievements include EcoVadis Gold award (Top 5% of organisations assessed), CDP (Leadership A in Forests and Water, Management B in Climate Change) and inclusion in sustainable investment portfolios such as FTSE4Good, MSCI and VigeoEiris.

## Sustainable Plastic Solutions

In our Plastics Division, sustainability is about designing durable, reusable and recyclable products. Our dispensing solutions, in particular, facilitate efficient fluid storage, preventing leakage, reducing product waste and extending shelf life. Working closely with our customers, we can help build increasingly more sustainable supply chains.
